

WHAT SPEED PACKAGE IS RIGHT FOR MY BUSINESS?

OPTION 1

Full Fibre 50/50mbps

£35.00 per month with **FREE** installation

A great package for home working and small businesses. Our 50Mb/s full fibre connection is a big step up from standard broadband, with an upload speed equal to the download speed it's great for online software and remote working and there is no additional line rental to pay if you don't need a telephone.

OPTION 2

Full Fibre 100/100mbps

£55.00 per month with **FREE** installation

Perfect for small and growing businesses that rely on the internet. Superfast speeds with the reliability of a full fibre network this package is more than capable of handling your data and voice requirements.

OPTION 3

Full Fibre 200/200mbps

£100.00 per month with **FREE** installation

Our best fibre to the premises package delivering superfast speeds over a brand new full fibre network. This package is perfect for businesses with high data usage and lots of connected devices. Add the DrayTek firewall router below with multi network 4G failover for the ultimate solution.

ROUTER OPTIONS

For a complete end to end solution choose one of our tried and tested routers below, they all come with extended warranty for the full contract term so if you have a fault we will send you a new one for the next working day. All routers will be delivered fully configured ready to plug in when your full fibre connection is installed.
