Full Fibre 100/100mbps

£35.00 per month with
FREE installation

Who is it for?

A great package for remote working and small businesses.

What does it offer?

Our 100mbps full fibre connection has an upload speed equal to its download speed, which makes it great for those needing to work with online software and file transfers. If you don't need a phone connection, you aren't required to install or pay for a line rental.

Full Fibre 500/500mbps

£55.00 per month with
FREE installation

Who is it for?

Perfect for both small and growing businesses that rely on the internet.

What does it offer?

With superfast speeds and reliability of a full fibre network, this package handles your data and voice requirements with ease.

Full Fibre 1000/1000mbps (1GB)

£75.00 per month with
FREE installation

Who is it for?

This package suits data-hungry businesses who are connecting multiple devices.

What does it offer?

Our best fibre to the premises package, delivering superfast speeds over a brand-new full fibre network. For unexpected connection loss, there's a 4G backup solution. Add the DreyTek firewall router (listed below) with multi-network 4G failover.

Router options

For a complete end-to-end solution, opt for one of our routers.

DrayTek

2766ax Wi-Fi Router

£6.50 per month

A small business router with built-in firewall that will allow you to take full advantage of the speeds available on the full fibre network.

2927ax

£10.00 per month

A gigabit-capable business router with a built-in extensive firewall that will allow you to take full advantage of the speeds available on the full fibre network.

2927Lac

£25.00 per month

The ultimate solution. A gigabit-capable router with an extensive firewall built in, and multi-network 4G failover. For complete peace of mind, take full advantage of your fibre connection with our extended warranty cover and 4G failover.

We're proud to be the trusted telecoms provider for many Leominster businesses:

Redline's router promise

1. All our routers come with a warranty that extends the duration of your contract term, so you can rely on next day replacement should yours have a fault.
2. Your router will come fully configured by one of our DrayTek certified engineers, ready to plug-and-go once your full fibre connection is installed.
